Ice Machine / Iced Tea* Iced Coffee

Café to You is proud to announce the arrival of its new countertop ice machine. The new icemaker can be used as a plumbed-in or pour-over system and does not require a drain. This easy-to-use machine produces a tray of ice every seven to eight minutes and approximately 33 pounds of ice per day with an outer body color of metallic charcoal gray.

P O U (Point-Of-Use) Coolers

Say "goodbye" to those expensive and heavy bottles of water. We have the perfect solution . . . Café to You bottleless water coolers. Remember, when you use one of our bottleless water coolers, you will never have to worry about high monthly costs associated with a water supply company, no more empty bottles, and no more waiting for your new supply of full water bottles to arrive. We hook your new Café to You water cooler into your existing cold water line and get ready to enjoy an endless supply of quality clean filtered drinking water.
